Section 10-4

CHEMPACK/MEDDRUN

Purpose: The CHEMPACK Project provided the State of Michigan, in collaboration with the Center for Disease Control (CDC) and the U.S. Department of Homeland Security, with a sustainable, supplemental source of pre-positioned nerve agent/organophosphate antidotes and associated pharmaceuticals. A large-scale event would rapidly overwhelm both the pre-hospital and hospital healthcare systems.

The CHEMPACK project is one component of the Michigan Emergency Preparedness Pharmaceutical Plan (MEPPP), a comprehensive statewide plan for coordinating timely application of pharmaceutical resources in the event of an act of terrorism or large-scale technological emergency/disaster.

The Michigan Emergency Drug Delivery and Resource Utilization Network (MEDDRUN) established standardized caches of medications and supplies strategically located throughout the State of Michigan. In the event of a terrorist incident or other catastrophic event resulting in mass casualties, MEDDRUN is intended to rapidly deliver medications and medical supplies, when local supplies are not adequate or become exhausted. The goal is to deploy MedPack within 15 minutes of the request.

Only authorized agencies and officials can request MEDDRUN. These agencies include any Michigan Hospital, local public health agency, or emergency management program. Authorized officials include designated representatives from the Bureau of Emergency Preparedness, EMS, and Systems of Care (BEPESOC), the Michigan State Police (MSP) and the Regional Bioterrorism Preparedness projects.

Activation

- I. Recognition of need can come from EMS personnel, or it may be a hospital, public health, EOC, or Emergency management that identifies the need for activation.
 - A. EMS Identifies a need for medication support.
 1. Contact Central Dispatch or a hospital/MCA
 2. Central Dispatch or hospital/MCA contacts MEDDRUN and/or CHEMPACK Communications Agency
 - B. Hospital, Public Health, EOC or Emergency Management
 1. Identifies need
 2. Hospital, Public Health, EOC or Emergency Management contacts MEDDRUN and/or CHEMPACK Communications Agency
 - C. To activate MEDDRUN and/or CHEMPACK call:
 1. Primary Communication Agency: 877-633-7786
 2. Backup Communication Agency: 616-391-5330
- II. CHEMPACK/MEDDRUN Communications Agency:
 - A. Conducts analysis & issues deployment orders to selected CHEMPACK/MEDDRUN storage sight, (CSS) Point of Contact (POC).
- III. Storage site notifies the transport unit and moves cache to designated loading area.

Initial Date: 10/25/2017

Revised Date: 12/27/2022

Section 10-4

- A. If confirmed, the Agency loads CHEMPACK/MEDDRUN supplies onto transport unit.
- B. If deployed, Dispatch notifies the MCA regarding dispatching transport vehicle.

Responsibilities

- I. BEPESOC follow-up will include:
 - A. Contacting the requesting agency to authenticate the request.
 - B. Contacting Communications Agency to provide confirmation or initiate recall. If confirmed, advise if Alert Orders should be initiated.
 - C. Contacts Michigan State Police (MSP) East Lansing Operations Center (ELOP)
 - D. Coordinates potential Inter-Hospital Formulary Distribution.
 - E. Coordinates a MI-HAN Alert.
- II. Communications:
 - A. Provides Certificate Order/Recall Order.
 - B. Notifies storage site Point of Contact of either a Certification Order or Recall Order.
 - C. If BEPESOC issues an alert, Communications Agency issues an Alert Order to appropriate CHEMPACK storage site(s) for possible deployment.
- III. Storage Site:
 - A. Once confirmed, the Agency loads the supplies into the transportation vehicle and transports to the specific location.
- IV. Designated Transportation Agency:
 - A. Ensure adequate security of the cache materials while being transported to the delivery point.
 - B. Maintain communications with the storage site's Point of Contact while en route to the delivery point, providing periodic updates regarding present location/circumstances that may impact time of delivery.
 - C. Follow the routes specified by the CSS POC and advise upon arrival to the delivery point.

DELIVERY OF CACHE

- I. When the cache arrives at the delivery point, the Incident Command (IC) will take receipt of the cache as the person in charge by completing the Transfer of Custody form that will accompany the cache. The IC will ensure accurate accounting of the antidote supplies in coordination with the senior medical/EMT at the scene.
 - A. If additional antidotes are required, the IC will Inform Central Dispatch/911.
 - B. If it appears that the amount of antidote needed will be less than anticipated, the transport vehicle will remain in the area to take custody of the unused antidotes to return them to the CSS POC.
 - C. Advise the CSS POC when the mission is completed.

POST DEPLOYMENT

- I. Within 72 hours of a deployment, the Agencies, BEPESOC and Communications will prepare a Preliminary After Action Report (AAR) using the format prescribed by BEPESOC. (See AAR attachment) BEPESOC will review each AAR with the intent of improving future responses.

Initial Date: 10/25/2017

Section 10-4

Re-STOCKING MEDPACKS

- I. It is important that a packs be restocked and placed back in service as quickly as possible. The Agency may be returned to service on a limited basis with a partially depleted MedPack/Chempack. Depending on the availability of federal funds, the Regional Emergency Preparedness Coordinator, in collaboration with BEPESOC, will be responsible for ordering the supplies to re-stock the MedPack(s)/Chempack(s) used.
- II. BEPESOC and Communications will be notified upon the MedPack/Chempack being returned to FULL SERVICE.

**MEDDRUN may also be pre-deployed for special events, designated by the State and Regional Leadership.*

The graphic features a black helicopter flying over a cloudy sky. Below the helicopter, the word "MEDDRUN" is written in large, bold, black serif font. Below "MEDDRUN", the word "CHEMPACK" is written in large, bold, black serif font, with a chemical structure overlaying the letters. The entire graphic is framed by two horizontal red lines.

To activate MEDDRUN and/or CHEMPACK call:

Primary Communications Agency
(877) 633-7786

Backup Communications Agency
(616) 391-5330

Essential Elements of Information (EEI) Report

Essential Elements of Information Report															
1. Name, Position, and Contact Information for the Individual Requesting Deployment of CHEMPACK Cache	Name: _____ Position/Title: _____ Telephone/Other Contact: _____														
2. Name of Physician/Officer in Charge of Medical Management at the Scene (if different than above)	Name: _____ Position/Title: _____ Employer: _____ Telephone/Other Contact: _____														
3. Location of Incident	Jurisdiction Name: _____ Closest Intersection: _____ OR Name of Site: _____														
4. Estimated Number of Casualties	<table border="1"> <thead> <tr> <th>None</th> <th>5-10</th> <th>100-300</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>10-20</td> <td>300-500</td> </tr> <tr> <td>2-3</td> <td>20-40</td> <td>500-1000</td> </tr> <tr> <td>4-5</td> <td>40-100</td> <td>1000+</td> </tr> </tbody> </table>			None	5-10	100-300	1	10-20	300-500	2-3	20-40	500-1000	4-5	40-100	1000+
None	5-10	100-300													
1	10-20	300-500													
2-3	20-40	500-1000													
4-5	40-100	1000+													
5. Symptoms of Casualties	<table border="1"> <tbody> <tr> <td>Pinpoint Pupils</td> <td>Twitching</td> </tr> <tr> <td>Dimness of Vision</td> <td>Seizures</td> </tr> <tr> <td>Slurred Speech</td> <td>Chest Tightness</td> </tr> <tr> <td>Difficulty Breathing</td> <td>Unconsciousness</td> </tr> </tbody> </table>			Pinpoint Pupils	Twitching	Dimness of Vision	Seizures	Slurred Speech	Chest Tightness	Difficulty Breathing	Unconsciousness				
Pinpoint Pupils	Twitching														
Dimness of Vision	Seizures														
Slurred Speech	Chest Tightness														
Difficulty Breathing	Unconsciousness														
6. Local Supplies of Antidotes and Pharmaceuticals are Exhausted, multiple lives remain at risk, and CHEMPACK supplies are needed to save lives	☐ Yes ☐ No
